

Wasp Trap and Bait Instructions for usage

1. Pour 250ml of liquid bait into the yellow base of the trap.
2. Screw on the clear, plastic lid.
3. Ensure that any spillages of liquid bait are cleaned up thoroughly using a disposable cloth.

4. Hang using the string included with your trap away from occupied areas in order to catch the wasps as they arrive.
5. Once the trap is filled with wasps, empty the contents with regular waste and refill with liquid bait.
