

## Single-Use Solar Panel Mesh Clips

**SKU:** WM173

**Product Description:** The fastest and most secure way to attach wire mesh to solar panel arrays. Designed exclusively by PestFix, these innovative clips offer universal compatibility, eliminating the need for a return lip and ensuring a seamless, hassle-free installation.

With superior grip technology, unique clip legs provide a stronger, more durable hold, making them the most reliable choice for solar panel protection. Unlike traditional mounting methods, these clips require no drilling, preserving your solar panel warranty while withstanding temperature fluctuations for long-term performance.
