

## CASE STUDY: PIGEON SPIKES

### THE CHALLENGE

A business was facing persistent issues with pigeons, which were causing significant fouling on the premises and surrounding areas. The bird droppings were not only creating an unhygienic environment but also posed operational challenges such as increased cleaning costs and potential slip hazards.

### THE SOLUTION

Previously, Ark Pest Control had relied solely on Defender Spikes but decided to switch to BirdOff Bird Spikes after PestFix offered a great deal on a high-quality product. BirdOff Standard Pigeon Spikes were installed using Soudal Silirub Silicon Adhesive, ensuring a strong and lasting bond.

### THE RESULT

Since installing BirdOff Bird Spikes, the business has seen a significant reduction in bird activity. Pigeons have migrated away from treated areas, eliminating fouling issues.

"I am extremely satisfied with the BirdOff Spikes and extremely satisfied with the next-day delivery offered. I would highly recommend the product and the service provided by PestFix." - Michael Scott, Operations Manager of Ark Pest Control Ltd.
